

MORFPRO T-24

SKIN REJUVENATION

- Facial – body technology
- Different tips with needles.
- Ascending and descending pressure through vacuum T-24.
- Nano Waves Platelets: 4 x 4 – 2x2
- Digital screen.
- Preset.
- Calibrated program.
- Rejuvenation.
- Skin firming.
- Acute dermal recoveries.
- Hypertrophic marks.
- Recovery of facial contour.
- Decreased double chin.
- Subdermal repairs.
- Complications in hyperplasia.
- Repair of different clinical stages of cellulite.
- Red/silver stretch marks

HIFU FROZEN

SKIN REJUVENATION

- Facial – body platform
- Deep nano cold energy technology.
- Lifting without surgery.
- Tissue firming
- 13 nm body capsule, muscle reducing – firming
- Cooling capsules (-10°C)
- 4 capsules 2.00 nm, 3.00 nm, 4.5 nm, 13.00 nm.
- Four shots in each capsule
- Digital display
- Preset and illustrated

K-11 REVOLUTION

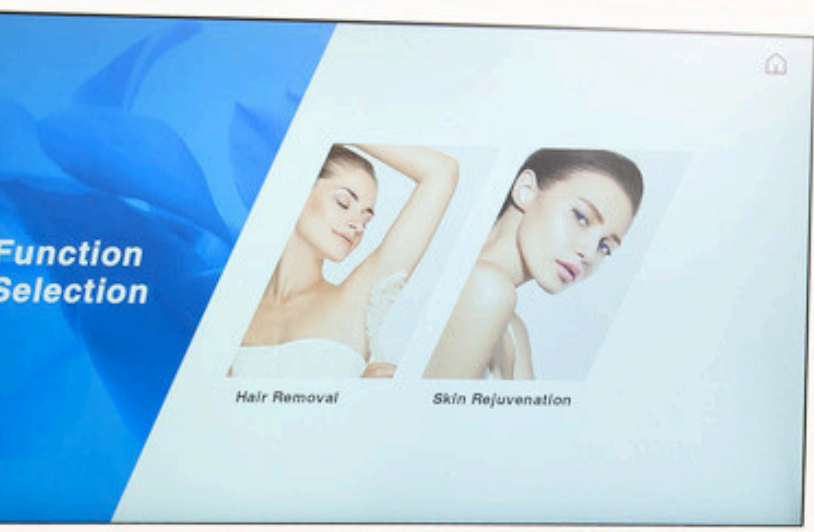

HAIR REMOVAL

- Five different simultaneous wavelengths.
- 1064 nm (deep hair follicles).
- 810nm (fine and coarse hair removal).
- 755 nm (high absorption).
- 590 nm (Rejuvenation).
- 530 nm (Hyperpigmentation).
- K-11 Digital Visual Program Deep Nano Wave Technology.
- Tip K11.
- Cryogenic radiofrequency
- Ultracold (-10°C / 360)
- Mega Scanner -4D HD - 1000 Megapixels.
- FitzPatrick (Range 1-6).
- No pain. No irritation.
- Power: 8000 volts.

K10 ULTRA DIODE

HAIR REMOVAL

- Four different wavelengths simultaneously.
- 1064 nanometers (deep hair follicles)
- 810 nanometers (removing coarse and fine hair)
- 755 nm (high absorption)
- 590 nanometers. Skin Rejuvenation.
- Digital visual k 10- program
- Nano deep wave technology
- Tip k10 - Crio radiofrequency
- Ultra cold (-10°C / 360)
- Scanner -3D HD - Megapixeles
- FitzPatrick (range 1 to 6)
- Painless. No irritation on the epidermis.

CRYSTAL EVO

HAIR REMOVAL

- Unidirectional and monochromatic light.
- HD EVO program: digital – fast energy – deep pulse – continuous frequency.
- Three wavelengths.
- 1064 nm (deep hair follicles).
- 810 nm (removing thick and fine hair).
- Alexandrite 755 nm
- 30 diode crystal bars.
- High speed handle.
- Evo Pedal.
- Triple glass tip (extra fine)
- Cold tip (-10°C).
- Radiofrequency pulse tip.
- Rapid and continuous shooting system.
- Power: 4000 volts.
- No pain. No irritation.

MILLENIUM HD 24

HAIR REMOVAL

- Unidirectional and monochrome light.
- HD Milenium Program: digital – fast energy – deep pulse – continue frequency.
- Three wavelengths.
- 1064 nanometers (deep hair follicles)
- 810 nanometers (removing coarse and fine hair)
- 755 nm (high absorption)
- 30 diode crystal bars.
- High speed handle.
- Millenium foot pedal.
- Triple crystal tip (extra thin)
- Cold tip (-10 °C)
- Radiofrequency pulse tip.
- Fast continuous trigger system.
- Power: 6000 watts.

CHROMATIC IPL E-LIGHT 24

- Multiple treatment options.
- Interchangeable filters HD-24.
- New system: Bi-focal filters.
- 480 nm acne clearance and hyperpigmentation.
- 530 nm vascularity treatment.
- 590 nm skin rejuvenation double action.
- 640 nm hair removal and skin rejuvenation.
- 690 nm vascularity and rejuvenation.
- Thermal electric cooling (-10°C).

NEO FRAXEL CO2

- Versatile Fractional Neo CO2 system
- Microscopic columns of ablation
- Neo-Co2 smart workstation
- Three dermal levels
- 360° of rotation program
- Superficial epidermis work
- Deep neo Co2 fractionated system
- 6 scan patterns
- Smart scanner
- 5 handpieces
- Customized settings
- Painless. Safe.

NDYAG Q-SWITCH

SKIN REJUVENATION

- Digital screen.
- 6 digital programs.
- Frequency: 10 HZ.
- Joules: 2000 joules.
- Q-Switch nano wave.
- Filters: ultra-thin high definition double glass.
- 755 nm: absorbs the heat wave at a higher speed.
- Rejuvenation and carbon peeling.
- Pico laser: Hyperpigmentation and rejuvenation.
- Pigment removal in eyebrows.
- PMU removal: 1064 nm (black pigment removal).
- PMU removal: 532nm (primary color removal)
- Body tattoo removal 1064 nm: (black pigment removal).
- Body tattoo removal 532nm: (removal of primary colors).
- Onychomycosis removal: 1064 nm and 532 nm.
- Power: 6000 watts.

PLUS X-24 NDYAG Q-SWITCH

SKIN REJUVENATION

- Pigment reader.
- Workstation – 4T.
- 4 nano waves.
- 1320 nm (whitening).
- 755 nm (pico laser).
- 1064 nm (dark pigments).
- 532 nm (primary color pigments).
- ND YAG plus X-24 technology smooth and deep shots.
- Four selective dermal filters.
- X-24 fast dual frequency.
- Two anti-aging programs with selective waves (bifocal filters).
- Bio Nano Point.
- Output energy 2000 MJ (short pulses).
- No pain. No irritation.

K8 ULTRA DIODE

HAIR REMOVAL

- Three different wavelengths simultaneously.
- 1064 nanometers (deep hair follicles)
- 810 nanometers (removing coarse and fine hair)
- 755 nm (high absorption)
- Digital visual k8 – program
- Nano wave technology
- Tip k8 – ultra cold (–5 °C)
- Retractable screen
- FitzPatrick (range 1 to 6)
- Painless. No irritation on the epidermis.

ENDOLIFTING BBL PLUS

- Anti aging-firming program (body and facial).
- BBL 4/p.
- Broad band light.
- Double energy photonic and photothermic.
- FitzPatrick (range 1 to 6).
- Nano wave 590 nm.
- Pigment and vascularity reader.
- Brown and red pigments.
- Smooth nano deep shot technology.
- Cold tip with radiofrequency (-10°C)
- Double program.
- continuous & pressed shots.
- Filter light technology.
- Thousands of a second penetration.
- Sapphire 18 ct rose gold tip
- Painless. No irritation. Efficacy

ENDOROLLER

- Nuestro Endoroller 2024 Medexx maneja 2 handles los cuales son intercambiables según la necesidad de su cliente.
- **3 pequeños para facial** en presentación silicona, gold y silver.
- **3 grandes para corporal:**
Endoroller de silicona para adiposidad e hipertrofia muscular donde realizaremos mayor número de sesiones.
- **Endoroller silver** que favorece el drenaje linfático y moviliza líquidos terciiales.
- **Endoroller gold** favorece la rotación de fibras para generar una reafirmación cutánea .

ENDOLIFTING BBL PLUS

- Programa antiedad-reafirmante (corporal y facial).
- BBL 4/p.
- Luz de banda ancha.
- Fotónico y fototérmico de doble energía.
- FitzPatrick (rango 1 a 6).
- Nanoonda 590 nm.
- Lector de pigmentos y vascularidad.
- Pigmentos marrones y rojos.
- Tecnología nano deep shot.
- Cold Tip con radiofrecuencia (-10°C)
- Programa doble.
- Disparos continuos y pulsados.
- Tecnología de filtrado de luz.
- Penetración de miles de segundos.
- Zafiro punta de oro rosa de 18 quilates
- Sin dolor. Sin irritación. Eficiente.

CRYSTAL DIODE HD 25

HAIR REMOVAL

- Unidirectional and monochrome light – HD 25
- HD 25 – Crystal Program
- 30 diode bars crystal
- High Speed Handle – 140 m/s
- Triple crystal tip
- Diode bar crystal cascade
- Program 4D: digital – energy – pulse – frequency
- Cold tip
- Fractional radiofrequency tip
- Painless. No irritations.
- Fast continuous trigger system.
- Power: 4000 watts.

CRYSTAL DIODE HD 25

HAIR REMOVAL

- **ALEXANDRITE 755 nm:** 755nm is equivalent to the Alexandrite laser wavelength, providing maximum absorption by melanin; and delivering successful hair removal across a wide range of skin types especially focused on light and fine hair.
- **DIODE 808 nm:** The gold standard in Diode laser hair removal. Deep penetration and high-power, whilst maintaining an average absorption rate, making it suitable for all skin types. Its moderate penetration targets the Bulb and Bulge of the hair follicle and provides excellence in treating legs, arms, and cheeks.
- **DIODE 940 nm:** Ideal for rejuvenation treatments, it also combines the proper balance of absorption and depth between the 808 and 1064 wavelengths to achieve better epilation of the low melanin hairs (blonde, grey).
- **YAG 1064 nm:** With the lowest melanin absorption but greatest depth and penetration, the 1064nm Yag wavelength is ideal for darker skin types. Its depth also targets the root of the hair and is suitable for hair removal on pubic, underarms, scalp, and bikini.
- 30 Diode Crystal Bars
- Triple crystal tip
- 6000 WATTS
- Cooling chamber (-10°C).

CRYSTAL DIODE HD 25

HAIR REMOVAL

- Luz unidireccional y monocromática – HD 25
- HD 25 – Programa Cristal
- 30 barras de diodos de cristal
- Mango de alta velocidad – 140 m/s
- Punta triple de cristal
- Barras en caída tecnología nano cascada.
- Programa 4D: digital – energía – pulso – frecuencia
- Punta fría
- Punta de radiofrecuencia fraccionada
- Sin dolor. Sin irritaciones.
- Sistema de disparo continuo rápido.
- Potencia: 6000 voltios.

CRYSTAL DIODE HD 25

HAIR REMOVAL

- Unidirectional and monochrome light – HD 25
- HD 25 – Crystal Program
- 30 diode bars crystal
- High Speed Handle – 140 m/s
- Triple crystal tip
- Diode bar crystal cascade
- Program 4D: digital – energy – pulse – frequency
- Cold tip
- Fractional radiofrequency tip
- Painless. No irritations.
- Fast continuous trigger system.
- Power: 4000 watts.
